FILE
SDC2026_EcoByte_Replit_POU.pdf

How Team EcoByte used Replit

Use	What we did on Replit	Evidence
Ideation	Used Replit Agent to research and compare six project ideas for Domain 1 (SkillBridge, TVET Compass, Redeploy, ReturnReady and others) before choosing the concept that became Nexa	Screenshot 3 · project “SDC @ EcoByte”
Pitch deck	Imported our deck into Replit and used Replit Agent to redesign it into a colourful, editable 10-slide deck with PPTX export	Screenshot 1 · project “Nexa — Colorful Editable Pitch Deck”
Runnable on Replit	The repository ships a `.replit` file (Node.js 22, run + autoscale deployment config), so the app can be run on Replit	github.com/eyahia1712/Nexa/blob/main/.replit
Credits	Replit Core / AI credits spent on the work above during the hackathon period	Screenshot 4 · Usage page

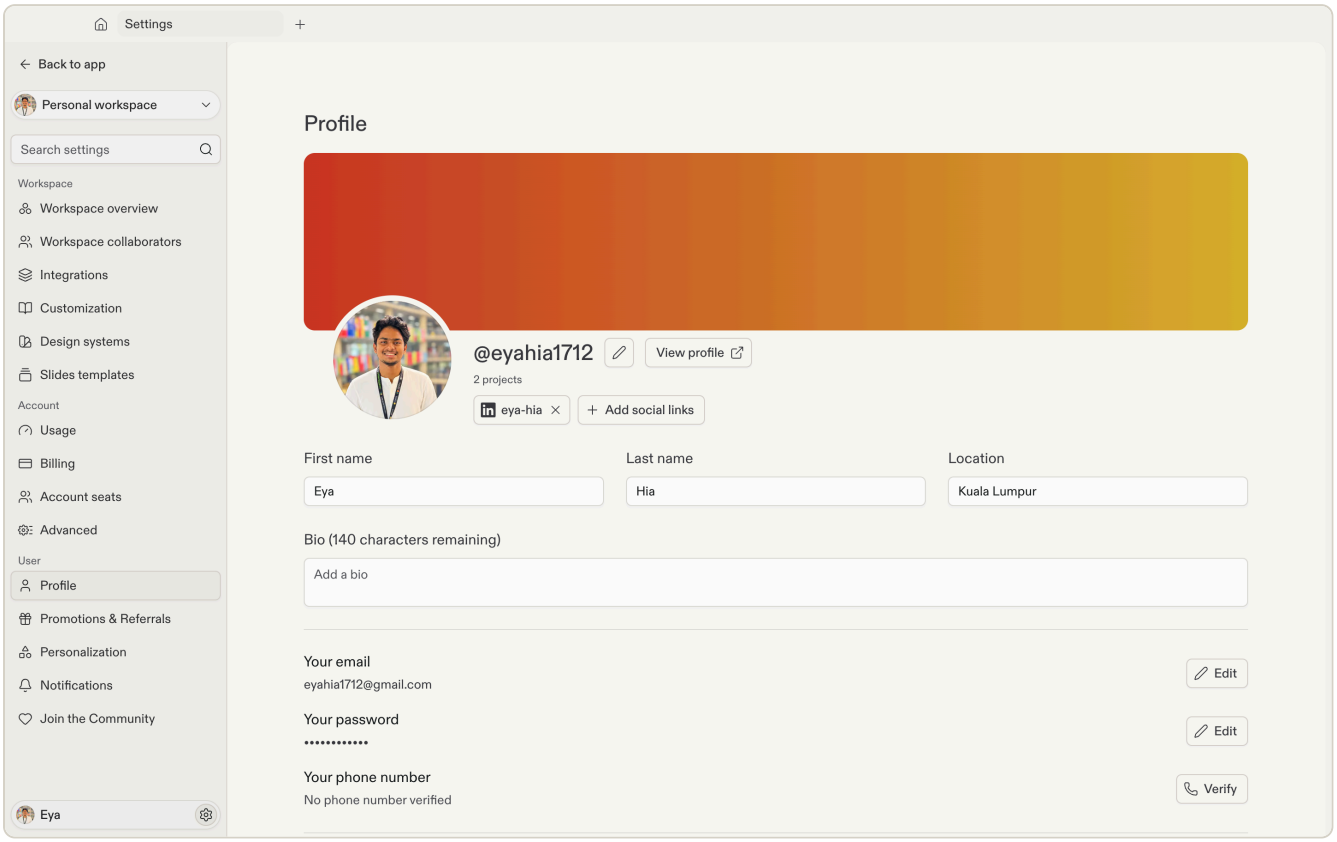

Replit account	@eyahia1712 (Eya Hia, team leader) — the team's own account
Projects	SDC @ EcoByte · Nexa — Colorful Editable Pitch Deck
Credit used	US$1.75 this period (23 Oct – 22 Nov 2026); US$18.25 remaining
Captured	24 October 2026
